

## THE PROGRAM!

The iLawn Bowl program is designed to introduce the Sport of Lawn Bowling to High school, Elementary students and kids with disabilities by bringing the Bowls & Equipment to the school gyms where we reach kids that would otherwise not have access to see what the sport of lawn bowling has to offer and what its is all about.

## WHAT WE DO!

We bring everything to the schools and the students. No field trip or school buses required! Lawn Bowling is a low impact sport that can be enjoyed by everyone for a lifetime. It is a fantastic physical activity that can be enjoyed by all ages and abilities. It also promotes sportsmanship, teamwork and is an inexpensive Sport that isn't really known to many people. We intend to change this with this program.

The iLawn Bowl program visits local schools as we take over a gym class or classes for various drills and team-building activities that we use to introduce students to the sport of Lawn Bowling. It is a highly interactive program with the emphasis on fun! We are teaching the sport of Lawn Bowling through different methods of skills and activities. It's a different approach to learning the sport of Bowls.

*"I enjoyed getting my students involved in this life long physical activity. It is a sport for all ages and skill levels"*

# THE SPORT OF LAWN BOWLS

Bowls is a strategic, challenging and fun sport that can be enjoyed by anyone. It is played on a large smooth grass surface called a "green". Lawn bowls are large, hard resin balls with a bias to them, so that they travel along an elliptical path, rather than going straight. The object of the game is to roll your bowls closer to the target than your opponents. The target is a small white ball called a "jack". The jack is rolled the length of the green to start each end. Players from each team taking turns rolling their bowls down the green toward the jack until all the bowls have been played.

## BENEFITS OF BOWLING

A big part of this program is the involvement of the Community. We want to share something that has been an active, yet hidden, part of the community for years. It is a shame that more of our community do not utilize the Sport and all it has to offer. With this program, we are confident that the participants will be educated on the Sport of Lawn Bowling. They may not join a club or become Champion bowlers right away, but what it will do educate the participants on a sport they did not know anything about. If we can share knowledge about bowls now and help people understand what the Sport has to offer, then down the road the Sport of Lawn Bowling won't be so foreign.

Bringing a new sport into the schools that is low impact and anyone can play. Not many people have played or know what Lawn Bowls is all about, so everyone starts on the same stage making this an easy activity for anyone who try's out the Sport.

- Health and Fitness
- Learning a new activity
- Applying information and using it
- Teamwork

- ✓ stay fit
- ✓ have fun
- ✓ work together!
